Minister's Message

YB Datuk Seri

Dr. Noraini binti Ahmad

Minister of Plantation and Commodities, Malaysia

It is my pleasure to welcome all delegates to the Malaysian Palm Oil Forum Kuala Lumpur 2026 (MPOF KL 2026).

Malaysia's palm oil industry is an important contributor to the national economy, supporting exports, employment and livelihoods across the value chain. As one of the world's leading producers and exporters, Malaysia also plays an important role in meeting global demand for a reliable, versatile and sustainably produced vegetable oil.

Building on MPOF Shanghai, held in May this year, MPOF KL 2026 continues Malaysia's efforts to strengthen trade partnerships and explore new markets. We remain committed to supplying quality palm oil products, supported by the Malaysian Sustainable Palm Oil (MSPO) certification scheme, to meet the needs of our trading partners worldwide.

The industry today operates in an increasingly complex global environment. Geopolitical developments, concerns over food and energy security, and changing market expectations are influencing trade and supply chains. These developments call for closer cooperation and an industry that can adapt and remain competitive.

The theme of this year's Forum, "Sustainable Growth in an Era of Geopolitical Realignment," is therefore both relevant and timely. It reflects the importance of pursuing growth and competitiveness while maintaining Malaysia's commitment to sustainability and responsible production.

MPOF KL 2026 provides an important platform for policymakers, industry leaders, experts, buyers and other stakeholders to exchange perspectives on these developments, strengthen collaboration and explore opportunities for the continued growth of the palm oil industry.

I commend the Malaysian Palm Oil Council (MPOC) for organising this Forum and for its continued efforts to strengthen Malaysia's engagement with the global palm oil industry.

To all our Malaysian and international delegates, I wish you productive discussions, meaningful engagements and a successful MPOF KL 2026.

Chairman's Message

Dato' Carl Bek-Nielsen
Chairman, Malaysian Palm Oil Council (MPOC)

It is my pleasure to welcome you to the Malaysian Palm Oil Forum Kuala Lumpur 2026 (MPOF KL 2026), the Malaysian Palm Oil Council's flagship international forum.

We meet at a time when the global economic and trade environment is undergoing significant changes. Geopolitical uncertainty, shifting trade relationships, evolving sustainability expectations, energy security concerns and changing patterns of consumption are influencing markets and supply chains worldwide. Against this backdrop, the theme of MPOF KL 2026, "Sustainable Growth in an Era of Geopolitical Realignment," reflects the need for our industry to remain resilient, competitive and responsive to emerging opportunities.

This year's programme brings together policymakers, industry leaders and experts to examine issues of direct relevance to the future of the palm oil industry. Discussions will cover geopolitics and trade realignment, sustainability and food security, the role of palm oil and biomass in the green energy transition,

emerging centres of demand, and the outlook for global oils and fats markets. The Forum also provides valuable opportunities for engagement through the exhibition, networking sessions and MPOC BizMatch.

I would like to express my sincere appreciation to YB Datuk Seri Dr. Noraini binti Ahmad, Minister of Plantation and Commodities, Malaysia, for officiating MPOF KL 2026 and delivering the keynote address. My appreciation also goes to our distinguished speakers, sponsors, exhibitors, international buyers and participants whose support and participation make this Forum possible.

As the global landscape continues to evolve, dialogue and collaboration across markets and industries will remain essential. I hope MPOF KL 2026 provides a meaningful platform to exchange perspectives, strengthen partnerships and identify new opportunities for the continued growth of Malaysian palm oil.

Thank you for joining us, and I wish everyone a productive and successful MPOF KL 2026.

CONFERENCE SCHEDULE

Programme

Day 1 (7 October 2026)

Time	Programme
0800 hrs	Registration Opens
Opening Ceremony	
0900 hrs	Opening Performance Welcome Remarks YBhg. Dato' Carl Bek-Nielsen Chairman, Malaysian Palm Oil Council (MPOC) Keynote Address & Official Opening YB Datuk Seri Dr. Noraini binti Ahmad Minister of Plantation and Commodities, Malaysia Presentation of Appreciation Shields to Sponsors (Titanium, Platinum and Gold Sponsors)
0945 hrs	Plenary Paper Geopolitics, Trade Realignment and Economic Resilience: Positioning Malaysia in a Fragmented Global Economy Speaker: Prof. Dr. Ong Kian-Ming Adjunct Professor, Taylor's University
1030 hrs	Refreshment Break and Tour of Exhibition Area
Session 1 — Sustainability, Carbon Finance and the Energy Transition	
1100 hrs	Paper 1 Towards a More Sustainable Malaysian Palm Oil Industry: Key Findings Speaker: Ms. Arina Kok EY Asia-Pacific Climate Change Advisory Leader & EY ASEAN Climate Change & Sustainability Services Co-Leader; and Partner, Ernst & Young Consulting Sdn. Bhd.
1130 hrs	Paper 2 Food Security in the Era of Climate Change - Why Sustainable Crops Matter: A Carbon Markets Perspective Speaker: Dr. Renard Siew Group Head of Corporate Sustainability, Yinson & President, Malaysia Carbon Market Association (MCMA)
1200 hrs	Paper 3 Palm Oil's Energy Future — Biomass, SAF and the Road to Net Zero Speaker: YBhg. Dato' Leong Kin Mun President, Malaysia Biomass Industries Confederation
1230 hrs	Session 1 Q&A and Discussion Moderated by: Ms. Belvinder Sron Chief Executive Officer, Malaysian Palm Oil Council (MPOC) Panellists: • Prof. Dr. Ong Kian-Ming • Ms. Arina Kok • Dr. Renard Siew • YBhg. Dato' Leong Kin Mun
1300 hrs	Lunch & Networking

Day 1 (7 October 2026)

Time	Programme
Session 2 — Global Market Outlook, Trade and Price Dynamics	
1400 hrs	Presentation of Appreciation Shields to Silver Sponsors and Partners Paper 4 Palm Oil Demand Centres- The Next Growth Frontier Speaker: Mr. Nikhil Vallabhan Director, Chemicals, Materials & Nutrition, Frost & Sullivan
1430 hrs	Paper 5 Disruption and Realignment in Global Edible Oil Markets: Biofuels, Trade and the Outlook for 2027 Speaker: Dr. Julian McGill Managing Director, Glenauk Economics
1500 hrs	Paper 6 Global S&D and Price Outlook for Palm Oil and Laurics Speaker: Mr. Thomas Mielke Executive Director, ISTA Mielke GmbH
1545 hrs	Session 2 Q&A and Discussion Moderated by: Ms. Eleni Giokos CNN Anchor & Correspondent Panellists: • Mr. Nikhil Vallabhan • Dr. Julian McGill • Mr. Thomas Mielke
1630 hrs	Networking & Refreshments End of MPOF KL 2026

SPEAKERS

Speakers' Profiles

Prof. Dr. Ong Kian-Ming

Adjunct Professor, Taylor's University

Prof. Dr. Ong Kian-Ming is currently the Executive Director of RGE Malaysia. RGE is a diversified resources-based manufacturing and management group headquartered in Singapore. He is also an Adjunct Professor at Taylor's University, Malaysia. He was previously the Pro Vice-Chancellor (Pro VC) for External Engagement at Taylor's University and the Programme Director for Philosophy, Politics & Economics (PPE) at Taylor's University, Malaysia.

He was Senior Adviser to Global Counsel, an international advisory firm with offices in five countries. He is a member of the Board of Directors of the Malaysian Investment Development Authority (MIDA), having been

appointed in August 2023 for a two-year term. He has been an adviser to the Malaysia-China Chamber of Commerce (MCCC) since 2023.

He was an adviser to the Federation of Malaysian Manufacturers (FMM), serving a two-year term from January 2024 to December 2025. He has been a member of the Danish Chamber of Commerce (DANCHAM) since 2023. He was appointed as a member of the CEREBRUM Council, a think tank established by Johor Corporation (JCorp). He was a Senior Visiting Fellow at the ISEAS-Yusof Ishak Institute from March 2023 to September 2023, and an Associate Fellow from October to December 2023.

Arina Kok

EY Asia-Pacific Climate Change Advisory Leader and EY ASEAN Climate Change and Sustainability Services Co-Leader; and Partner, Ernst & Young Consulting Sdn. Bhd

Arina Kok is the EY Integrated Reporting subject matter professional in ASEAN and part of the working group of the Malaysian Accounting Standards Board (MASB) on sustainability reporting. She has also been appointed as a member of the Sustainability Committee established by the Council of the Malaysian Institute of Accountants, aimed to strengthen the regulation and development of the profession. She has provided a wide range of business advisory services to multinational companies while also supporting policymakers on the International Sustainability Standards Board (ISSB), with a strong focus on Environmental, Social and Governance (ESG) frameworks and policy development, Net Zero strategies, carbon emissions and climate-finance scenario modelling, digitalization of ESG performance metrics, integrated sustainability reporting and the incorporation of ESG considerations into financial decision-making.

Arina Kok led ESG strategies for corporates and engaged in high-level discussions with government agencies, Bursa Malaysia, Bank Negara Malaysia and the Securities Commission Malaysia on issues related to ESG, technology and sustainable finance.

Arina Kok participated in discussions with the Ministry of Natural Resources and Environmental Sustainability (NRES), and the Ministry of Investment, Trade and Industry (MITI) on green and social policies and standards for Malaysia. She led the project to support the development of the Sarawak Sustainability Blueprint 2030 (Formulation of Green Economic Policy and Action Plan) in May 2025, focusing on 12 ministries' priorities across 10 sectors, built on 10 strategic

thrusts, 48 detailed strategies and 111 actionable plans. Its strategic thrusts include energy transition, sustainable agriculture and food security, sustainable mobility, circular economy, sustainable manufacturing, sustainable mining, stewardship of natural assets, sustainable cities, inclusive social equity, and integrated tourism development.

Under Arina's leadership, EY issued the inaugural Climate Risk Disclosure Barometer 2020 Malaysia, which analyzed Malaysia's top 100 public-listed companies' reporting disclosures against the global Taskforce on Climate-related Financial Disclosures (TCFD) recommendations. In 2020, 2022 and 2023, Arina supported the Joint Committee for Climate Change (JC3) of Bank Negara Malaysia and the Securities Commission Malaysia by facilitating capability-building workshops, and developed Malaysian Sustainable Finance Initiative (MSFI) for Capital Markets Malaysia (CMM) under the UK Prosperity Fund's ASEAN Low Carbon Energy Programme. EY was the delivery partner for the JC3 Journey to Zero Conference 2023 attended by over 6,000 financial institutions participants. It aimed to discuss practical and actionable solutions and the critical role of the financial services industry in driving Malaysia's transition to net-zero and long-term sustainability.

Over the past 10 years, she led the development of ESG and decarbonisation strategy for a large ASEAN utility company which lead to Net Zero commitment with decadal commitments and investment strategies. The recent project focuses on digitalization of ESG data into real-time monitoring to enable efficiency and to inform strategy, leading the group to improve MSCI rating from BBB to AA rating within a year.

Speakers' Profiles

Dr. Renard Siew

Group Head of Corporate Sustainability,
Yinson & President, Malaysia Carbon Market
Association (MCMA)

Dr. Renard Siew is the current President of the Malaysia Carbon Market Association (MCMA) and Group Head of Corporate Sustainability for Yinson where he works towards advancing the organisation's energy transition strategy.

Prior to this, he was involved in the implementation of the sustainability agenda for a number of public-listed corporations (Sime Darby, CIMB, MRCB) and was a researcher at the Centre for Energy and Environmental Markets (CEEM) contributing thought leadership in: sustainability/ integrated reporting, GHG reporting and verification, carbon markets, ESG integration, socially responsible investment (across different asset classes: equities, infrastructure and property/real estate) and sustainable construction for the building/ infrastructure sector. Renard completed his Bachelor's degree (Civil Engineering) at UNSW as well as postgraduate courses at the Cambridge Institute of Sustainability Leadership (CISL) and

an Executive Education in Public Leadership at the Harvard Kennedy School. He is a Senior Fellow of both the Portulans Institute and the Atlantic Institute. He also supervises Master's degree students at CISL and holds Adjunct Professorships at both Taylor's University and UNITAR.

He was the Co-Chair of the Climate Change & Disaster Risk Management Working Committee and UNEP-FI's Collective Commitment on Climate Action. In 2020, he was appointed an SDG Champion-Climate Action by the World Economic Forum (WEF). He is a member of the WEF Expert Network Group, serves on the WEF Global Future Council on SDG Investment. He was accepted into the Forbes Fellowship Programme and was named Tatler's Asia's Most Influential, a Generation Tatler recipient, Ten Outstanding Young Malaysians (TOYM), Asia 21 Young Leaders and a member of the Global Young Academy.

YBhg Dato' Leong Kin Mun

President, Malaysia Biomass Industries Confederation

Dato' Leong Kin Mun is the President of the Malaysia Biomass Industries Confederation and the Managing Director of Uni-Link Smart Venture Sdn. Bhd., a recognised accredited economic and commodities consultancy firm specialising in bioenergy feedstock economics, renewable energy business models, green finance, biochar carbon credit and investment incentive. He has led several high-impact national and international consultancy initiatives, including National Biomass Action Plan 2023–2030, SEDA's Study on Bioenergy Clustering Potential in Peninsular Malaysia 2025 under the National Energy Transition Roadmap. Currently he is leading two UK Government-funded consultancy projects i.e. "Innovative Green Finance Mechanism for Renewable Energy Grid Infrastructure Expansion (GRID-Fin)" and "Biochar Business Models". He had championed consultancy projects funded by the European Commission, Global Environment Facility (GEF) and advised multinational corporations across Asia and Europe on biomass feedstock supply chain and business models, sustainable aviation fuel (SAF) and green marine fuel.

Dato' Leong also serves as a Board Member of the Malaysian Green Technology & Climate Change Corporation (MGTC) since 2020. At MGTC, he is further entrusted as the Chairman for the Board Audit, Integrity & Risk Compliance Committee (BAIRC). He also serves as the Advisory Panel Member of the AAIBE Chair of Renewable Energy at Universiti Tenaga Nasional (UNITEN).

In 2026, he has been nominated by the Ministry of Natural Resources & Environmental Sustainability (NRES) to represent Malaysia to speak at the United Nations Framework Convention on Climate Change (UNFCCC) - Seventh Global Dialogue and Investment Focused Event, where he delivered a presentation entitled "Malaysia Perspective on Turning Palm Waste into Power". He is a sought-after speaker at conferences organised by the Ministry of Plantation & Commodities, Ministry of Energy Transition & Water Transformation (PETRA), European Commission, Malaysia-UK Pact Programme, Agency for Science, Technology and Research (A*STAR) Singapore, Argus Media (UK), The Edge Malaysia etc.

Speakers' Profiles

Belvinder Sron

Chief Executive Officer, Malaysian Palm Oil Council (MPOC)

Belvinder Sron is the Chief Executive Officer of the Malaysian Palm Oil Council (MPOC), where she leads the Council's global strategies to strengthen market access, promote Malaysian palm oil and safeguard the industry's interests internationally.

With more than 30 years of senior management experience, she has extensive expertise in strategic marketing, international communications, policy advocacy, stakeholder engagement and issues management. She has played a key role in addressing major trade, regulatory and reputational challenges affecting Malaysian palm oil.

Under her leadership, MPOC has refocused its market development strategy towards high-potential emerging markets, particularly in Sub Sahara Africa, ASEAN & Middle East and North Africa while maintaining its engagement in traditional markets. This diversification strategy has delivered strong results, with emerging markets now accounting for approximately 50% of Malaysia's palm oil exports.

Among her notable advocacy achievements, Belvinder led initiatives that contributed to the defeat of Australia's proposed *Truth in Palm Oil Labelling Bill* in 2010–2011 and the prevention of the proposed French "Nutella Tax" in 2014.

In recognition of her leadership and contribution to the global oils and fats industry, the Globoil Award Committee named her the recipient of the Globoil Woman Professional of the Year Award 2026. The recognition highlights her contribution to strengthening international cooperation, promoting dialogue between producing and consuming nations, and advancing a sustainable and responsible palm oil industry.

Belvinder has served as a Board Member of the Malaysian Sustainable Palm Oil (MSPO) organisation and was appointed by Malaysia's Minister of Investment, Trade and Industry to the Malaysia–India CEO Forum (MICEOF).

She holds a Master of Business Administration from the University of Strathclyde, United Kingdom, and has completed an Executive Programme at Harvard.

As CEO of MPOC, she continues to focus on expanding market opportunities, strengthening international partnerships and positioning Malaysian palm oil as a sustainable, responsible and competitive choice in the global oils and fats market.

Nikhil Vallabhan

Director, Chemicals, Materials & Nutrition, Frost & Sullivan

Nikhil Vallabhan is a Director in the Chemicals, Materials & Food practice of Frost & Sullivan, based out of KL, Malaysia.

Nikhil has more than fifteen years of experience spanning sectors such as Oleochemicals, petrochemicals and other downstream products. His role in Frost & Sullivan focuses on consulting for companies in the oleochemicals & palm oil sector in Asia Pacific across verticals such as

Geographic Expansion, Go To Market Strategies, Technology Due Diligence, Start-Up Identification & Investment, Long Term R&D formulation and Strategic Roadmaps.

He holds a Masters in Business Administration (MBA) degree from the Asian Institute of Management, Manila, Philippines and a Bachelors in Chemical Engineering from Manipal University, India.

Speakers' Profiles

Dr. Julian McGill

Managing Director, Glenauk Economics

Dr. Julian McGill is the Managing Director of Glenauk Economics, an advisory firm focusing on the economics of crops, agricultural commodities, and their value chains. Based in Kuala Lumpur, his research focuses on oilseeds, palm oil, and the lauric oils as well, as their many downstream derivatives in food, speciality fats, oleochemicals, feeds, and biofuel. He also has a longstanding interest in yield intensification in tropical oil crops.

He is on the advisory board of the Sustainable Coconut Partnership and a member of the Malaysian Estate Owners Association (MEAO) and Incorporated Society of Planters (ISP). Prior to founding Glenauk Economics, he started his career with LMC International where he established the Kuala Lumpur office. Dr McGill holds an M.A. (Honours) in Economics from the University of Edinburgh and completed his PhD at the University of Oxford.

Thomas Mielke

Executive Director, ISTA Mielke GmbH

Thomas Mielke is Executive Director of ISTA Mielke GmbH in Hamburg (Germany), OIL WORLD, a leading research organization that provides global supply, demand and price analyses, statistics and forecasts for all the major oilseeds, vegetable oils & animal fats and oilmeals as well as for biodiesel and livestock products with clients in 100 countries. He is a frequent speaker at conferences and workshops all over the world. Thomas Mielke joined the OIL WORLD team in the mid-1970s, after studying economics. He is a member of the Programme

Advisory Committee of the Malaysian Palm Oil Board and is giving lectures at the University of Hamburg (TUHH). In 2014 Thomas Mielke received a Lifetime Excellence Award of the Malaysian industry in recognition of his contributions and commitments. OIL WORLD was founded in 1958 and is recognized worldwide as a leading independent, authoritative and unbiased information provider. The WEEKLY and daily FLASH reports can be obtained from www.oilworld.de and also an OIL WORLD report in Mandarin is released 2 times a week.

Speakers' Profiles

Eleni Giokos

CNN Anchor & Correspondent

Eleni Giokos is a CNN anchor and correspondent, based in the United Arab Emirates. A regular anchor across CNN's news and business programming, she also presents the network's Connecting Africa and Marketplace Middle East feature shows.

Born in Greece and raised in South Africa, she has more than 15 years' experience working across TV, digital, radio and print media. One of CNN's most versatile correspondents, she joined the network in 2015.

Giokos has interviewed countless heads of state over the years, including Rwandan President Paul Kagame, former South African President Jacob Zuma, and former Nigerian President Goodluck Jonathan, to name just a few. Her list of business and economic interviews includes the likes of International Monetary Fund Managing Director Kristalina Georgieva, ECB president Christine Lagarde, and Virgin founder Richard Branson; as well as a 'who's who?' of Africa's most prominent business leaders, including Akinwumi Adesina, Aliko Dangote, Tony Elumelu, Patrice Motsepe, and the late Bob Collymore.

At CNN she has reported on the ground across Africa, from Nigeria, Kenya, Egypt and Zimbabwe, to Rwanda, Senegal, Ghana, Lesotho and more. She has highlighted the growing links between Africa and Asia, reporting from South Korea and Kazakhstan, traveled to the United States

to report from Washington DC, and anchored shows from the network's London, New York and Atlanta hubs.

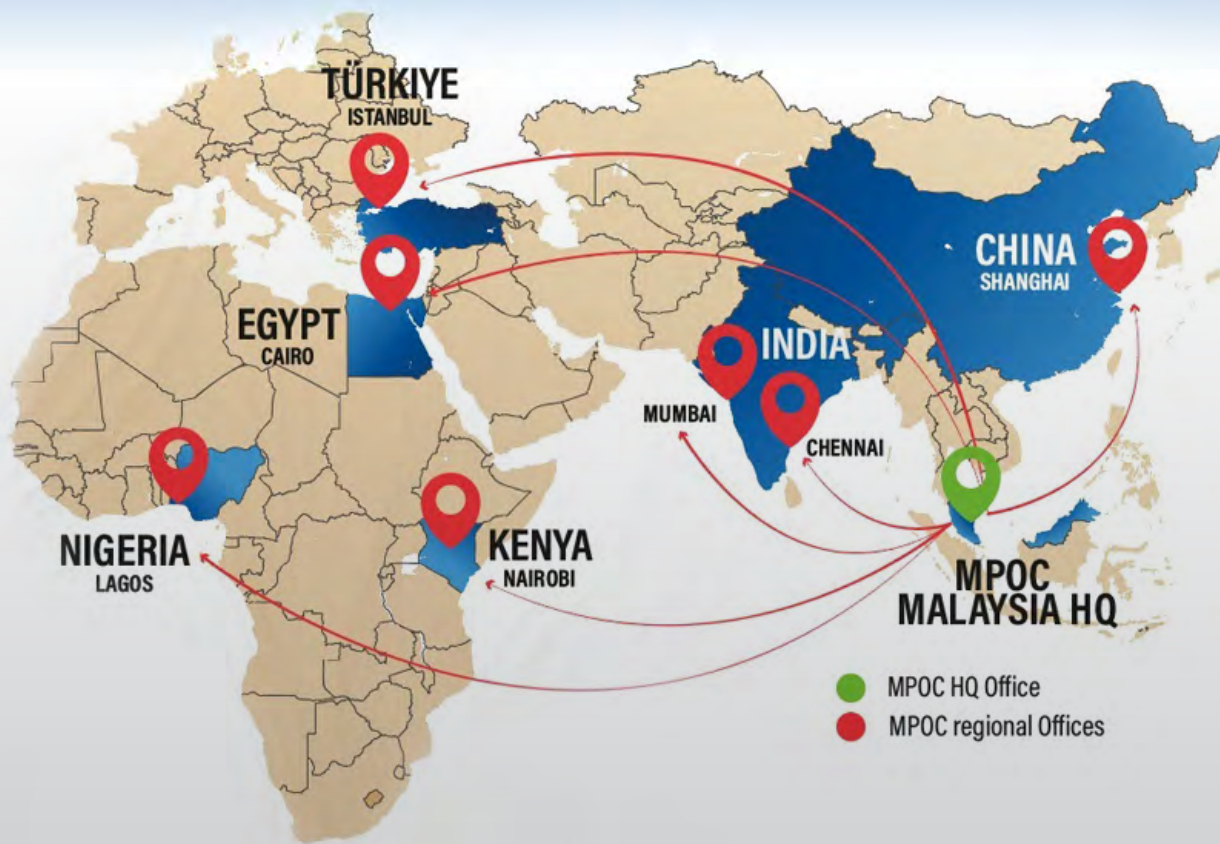

Giokos began her career at CNBC Africa in 2005, before joining 24-hour news channel, eNCA, as an anchor and correspondent. There she covered business stories as well as breaking news – including the killing of Reeve Steenkamp by Oscar Pistorius and the Westgate Mall attack.

She is a regular moderator at key global events such as the World Economic Forum in Davos, the United Nations General Assembly, the World Government Summit, and the Africa CEO Forum, to name just a few.

Giokos hosted the NBA's pioneering visit to Johannesburg in 2017, and has interviewed NBA Commissioner, Adam Silver, Toronto Raptors President, Masai Ujiri, as well as basketball legends, Bismack Biyombo and Dikembe Mutombo.

Elsewhere, she has contributed regularly to South Africa's Mail and Guardian newspaper, worked as a motivational speaker at public schools, and trained aspiring journalism students.

Giokos has an Honors Degree in Journalism and Media Studies from the University of Witwatersrand, and was made an International Monetary Fund Fellow in 2014.

ORGANISER

Organiser's Profile

M P O C

Malaysian Palm Oil Council (MPOC)

At MPOC, we don't just promote a commodity. We build markets, open new doors, and shape global perceptions. We connect Malaysia's producers to global markets, expanding and diversifying market access while driving growth and market share.

Our vision is clear - for Malaysia to be recognised as the global leader in certified sustainable palm oil. We show that responsible agriculture can be both profitable and principled, uniting progress with sustainability.

Because every new market we reach brings Malaysia closer to a more resilient, respected, and sustainable future - when palm oil rises, Malaysia rises with it.

GOLD SPONSOR

KUALA LUMPUR KEPONG BERHAD

Kuala Lumpur Kepong Berhad (KLK) started as a plantation company more than 100 years ago. Today, oil palm cultivation remains the Group's core business, with over 300,000 hectares of planted area.

KLK has diversified into resource-based manufacturing (refinery, oleochemicals, derivatives and specialty chemicals) vertically integrated its upstream, midstream and downstream businesses resulting in internationally-scaled oleochemicals operations in Malaysia, Indonesia, China and Europe.

The Group has also branched into property development under KLK Land, focusing on residential, commercial and industrial park developments in Malaysia.

Sponsors' Profiles

GOLD SPONSOR

SARAWAK OIL PALMS BERHAD

SOPB started out as a joint-venture between the Commonwealth Development Corporation (CDC) and the Sarawak State government in 1968 to pioneer the commercial planting of oil palms in the state with an initial land area covering 4,600 hectares of oil palm plantation under the name of Sarawak Oil Palms Sendirian Berhad (SOPSB) before the group changed to its name to SOPB officially in 1990.

SOPB is involved primarily in the cultivation of oil palms and the operation of palm oil mills.

SOPB was listed on the Bursa Malaysia in August 1991. In June 1995, Shin Yang Plantations Sdn. Bhd. (SY Group) bought over CDC's entire share in SOPB of 25%. Presently, SY Group together with Pelita Holdings Sdn. Bhd., an investment arm of the Sarawak State Government involving in property, urban development and plantation remain as the two substantial shareholders of SOPB with shareholding of approximately 35% and 28% respectively.

SOPB Group has since then expanded its land bank to over 122,000 hectares, with 88,000 hectares planted with oil palm trees in Sarawak. Oil palm plantation and the production of crude palm oil and palm kernels will continue to remain as the sole core business of SOPB Group.

GOLD SPONSOR

WILMAR INTERNATIONAL LIMITED

Wilmar International Limited, founded in 1991 and headquartered in Singapore, is Asia's leading agribusiness group and amongst the largest listed companies by market capitalisation on the Singapore Exchange. The Group's business activities include oil palm cultivation, oilseed crushing, edible oils refining, flour and rice milling, sugar milling and refining, manufacturing of consumer products, ready-to-eat meals, specialty fats, oleochemicals, biodiesel, fertilisers and food park operations. With over 1,000 manufacturing plants and a distribution network across China, India, Indonesia and 50 other countries and regions, and about 100,000 employees, Wilmar embraces sustainability across its operations, supply chain and communities.

Sponsors' Profiles

SILVER SPONSOR

NATURZ
Group Sdn. Bhd. (1233295k)

NATURZ GROUP SDN. BHD.

Naturz Group Sdn. Bhd. is a Malaysian manufacturer specializing in palm-based edible oils and fats for international markets. Since 2017, we have developed our manufacturing expertise to deliver reliable, high-quality, and customized products for diverse customer needs. Our focus is on competitive solutions, consistent quality, and building strong, long-term partnerships with global customers.

SILVER SPONSOR

YOCOOL FOOD PROCESSING SDN. BHD.

Yocool Food Processing Sdn Bhd, established in 2014, is a Malaysian manufacturer and distributor of edible palm oil, pure ghee and blended ghee. The company serves retail, foodservice and export markets through B2B and B2C channels, supported by MPOB licensing and HALAL, HACCP, ISO 9001, GMP and FoSIM certification standards.

Sponsors' Profiles

SILVER SPONSOR

SOUTHERN ACIDS INDUSTRIES SDN. BHD.

Towards a Better Tomorrow

Established in 1980, Southern Acids Industries Sdn. Bhd. (SAI) is the pioneer of Malaysia's palm-based oleochemical industry. With over four decades of experience in the industry, SAI proudly upholds its philosophy of transforming "green palms into green chemicals", combining nature's abundance with industrial excellence.

Nestled amidst vast palm oil plantations, our facility is strategically located to harness the full potential of Malaysia's rich natural resources. This proximity to palm sources not only ensures freshness and traceability of feedstock but also reinforces our commitment to sustainable and responsible sourcing.

At SAI, we specialize in the production of high-quality fatty acids and refined glycerine derived from palm oil and palm kernel oil. Our products serve as key building blocks for a wide spectrum of end-use industries — from Food and Pharmaceuticals, to Cosmetics, Home & Personal Care, and Industrial Applications. Whether as emulsifiers, lubricants or intermediates, our oleochemicals are engineered to meet stringent global standards.

Behind our product excellence is a dedicated team of engineers, chemists, and professionals, backed by state-of-the-art technology and stringent quality control systems. We ensure our products not only meet but exceed the expectations of our customers across Asia, Europe, the Americas, and the Middle East.

Sustainability remains at the heart of our operations. We are proudly aligned with globally recognized certifications and standards, advocating responsible palm oil practices that support environmental conservation, social equity, and economic viability throughout the value chain.

As a trusted oleochemical partner to some of the world's most recognized brands and manufacturers, SAI remains committed to delivering value through quality, sustainability, and innovation. We continue to expand our reach and capabilities, working hand-in-hand with stakeholders to shape a greener and more responsible oleochemical industry.

Southern Acids Industries – Your Reliable Oleochemicals Partner.

SILVER SPONSOR

SOUTHERN EDIBLE OIL INDUSTRIES (M) SDN. BHD.

Established since 1972, Southern Edible Oil Industries (M) Sdn Bhd, based in Selangor, Malaysia, manufactures and supplies palm-based edible oils and specialty fats for domestic and international markets. The company serves the food, feed and industrial applications industry through its diverse product offerings.

Sponsors' Profiles

SILVER SPONSOR

Able Perfect

ABLE PERFECT SDN. BHD.

Able Perfect is a leading manufacturer and exporter of edible oils and fats, with modern refineries in Malaysia and Indonesia and a combined supply capacity of 80,000 metric tons monthly. Serving customers in over 120 countries worldwide, we offer palm-based cooking oils & fats, canola oil, sunflower oil, soybean oil, cottonseed oil, specialty fats and customized packaging solutions for retail, HORECA and industrial markets.

SILVER SPONSOR

MALAYSIAN PALM OIL GREEN CONSERVATION FOUNDATION (MPOGCF)

The Malaysian Palm Oil Green Conservation Foundation (MPOGCF) was established in 2021 to support conservation initiatives and sustainable practices related to Malaysia's palm oil industry. MPOGCF focuses on reforestation, wildlife conservation, research and sustainability practices, working collaboratively with stakeholders to protect biodiversity and demonstrate the industry's commitment to environmental conservation.

Sponsors' Profiles

SILVER SPONSOR

MALAYSIAN SUSTAINABLE PALM OIL (MSPO)

The Malaysian Sustainable Palm Oil (MSPO) began in 2016 as a voluntary certification scheme for sustainable palm oil certification in Malaysia. In May 2017 the Malaysian Government made it mandatory from 1 January 2020, requiring every oil palm plantation, organised smallholding and palm oil mill in the country to be certified.

Following a multi-stakeholder review, a revised standard, MS2530:2022 or MSPO2.0 was launched in March 2022. It strengthens environmental, social and economic requirements to match global sustainability norms, and extends certification and traceability to processing facilities and dealers.

The 2022 standard reflects international expectations, including the UN Sustainable Development Goals. Some of the key additions are:

- High Conservation Value (HCV) areas must be identified and protected
- A 31 December 2019 cut-off date discourages conversion of natural forest, protected areas and HCV areas to oil palm
- ILO forced labour indicators applied, and all forms of discrimination prohibited
- Other social requirements such as child labour prohibition, decent living conditions required, and triangular employment avoided

Malaysia is continuing towards full MSPO implementation, promoting the benefits of MSPO certified palm oil in major importing markets, and will keep strengthening the standard as international best practice evolves.

We supply our products to local Malaysian market and at the same time, we export both products worldwide. Our principal responsibility is to supply quality products to our customers on a timely basis. PURITY has the systems and networking that enable us to optimise economies of scale facilitating us to supply quality products at competitive price. We are capable of supplying the products in bulk. We also collaborate with high volume importers to develop private labels.

Sponsors' Profiles

PARTNER

TH PLANTATIONS

TH PLANTATIONS BERHAD

TH Plantations Berhad ("THP"), the plantation arm of Lembaga Tabung Haji, is principally engaged in the cultivation of oil palm and the production of crude palm oil and palm kernel. The Group has more than 55,000 hectares of planted area, comprising 31 estates and 6 palm oil mills across Peninsular Malaysia, Sabah, Sarawak and Kalimantan, Indonesia.

Established in 1972 as Perbadanan Ladang-Ladang Tabung Haji Sendirian Berhad, THP was listed on the Main Board of Bursa Malaysia Securities Berhad on 27 April 2006.

THP remains focused on strengthening operational efficiency, improving productivity and practising disciplined cost management, while embedding sustainability across its operations. The Group's sustainability initiatives include biogas, solar energy, electric vehicle adoption and biodiversity conservation, supporting its broader ESG commitments.

PARTNER

OILNCO INDUSTRIES SDN. BHD.

With over three decades of expertise, Oilnco Industries is a global leader in the Edible Oils and Fats sector. Specializing in palm oil and its derivatives for consumer and industrial use, the company guarantees premium quality, sustainable practices, and strict compliance with Malaysian food safety and refining regulations.

Sponsors' Profiles

PARTNER

GENTING PLANTATIONS BERHAD

Genting Plantations, a subsidiary of Genting Berhad, commenced operations in 1980. It has a landbank of approximately 64,100 hectares in Malaysia and about 179,100 hectares (including the Plasma scheme) in Indonesia. It owns seven oil mills each in Malaysia and Indonesia, with a combined milling capacity of 765 metric tonnes per hour. In addition, the Group has ventured into the manufacturing of downstream palm-based products.

Genting Plantations has also diversified into property development to unlock the value of its strategically located landbank and has invested significantly in agriculture technology to provide total solutions and services to the Group's core agri-business in optimising yield, improving operating efficiency, enabling traceability and enhancing sustainability.

For more information, visit www.gentingplantations.com.

PARTNER

ANTARA COMMODITIES (M) SDN. BHD.

Antara Commodities (M) Sdn Bhd was incorporated in 2017, with wide supply channels throughout Malaysia and Southeast Asia. Drawing upon our experience, we have pooled together the ingredients of high quality goods, superb customer service, competitive pricing and timely delivery to offer our partners at home and abroad the lucrative opportunity to import, export and distribute a comprehensive range of products.

As our company's activities focus more on an ever evolving industry, we constantly keep watch and adapt with the regulations and biofuel legislations. With our combined experience of 30 years in the various capacities of commodities and trading, we have managed to acquire numerous commodity projects from reputable names locally such as Felda IFFCO, Matrix Oleochemicals, Emery and International companies such as: Bunge , Berg& Smith and Cargill.

Antara is also a successful and reliable partner in the biodiesel market, thanks to our palm oil byproducts' trading experience. Our services that range from palm oil trading, plantation advisory and farming help us contribute further to the palm oil sector. To offer a more turnkey approach, we offer solutions involving the packaging, branding, distribution, warehousing and logistics for edible oils and fats, as well as specialty fats, oleochemicals, animal feed, shortenings and margarines.

Quality has always been the No.1 priority here at Antara, and to upkeep that we have been certified by the regulating bodies such as MPOB, MPIC, ISCC, RSPO and MITI.

MALAYSIAN SUSTAINABLE PALM OIL

MSPO began in 2016 as a voluntary certification scheme for sustainable palm oil in Malaysia. It became mandatory from 1 January 2020, requiring every independent and organised smallholders, oil palm plantation, palm oil mill, refineries and dealers to be certified.

Following a multi-stakeholder review, a revised standard MS2530:2022 or MSPO 2.0, was launched in March 2022. It reflects international expectations, including the UN Sustainable Development Goals.

Some of the key addition are:

- High Conservation Value (HCV) areas must be identified and protected
- A 31 December 2019 cut-off date discourages conversion of natural forest, protected areas and HCV areas to oil palm
- ILO forced labour indicators applied, and all forms of discrimination prohibited
- Other social requirements such as child labour prohibition, decent living conditions required, and triangular employment avoided

Malaysia is continuing towards full MSPO implementation, promoting the benefits of MSPO certified palm oil in major importing markets, and will keep strengthening the standard as international best practice evolves.

CULTIVATING A SUSTAINABLE FUTURE

We are nation builders, championing rural economic growth, bolstering food security and contributing to Malaysia's position as a highly open economy. As one of the largest agribusiness companies in the world, and a key global player in the palm oil industry, we are committed to equitable and sustainable growth for all Malaysians.

At FGV, sustainability is more than a commitment, it's the foundation of everything we do. As one of the world's leading agribusiness companies, our vast ecosystem spans across our five main divisions: Plantation Division, Oils and Fats Division, Sugar Division, Logistics Division, and the Commercial Division with palm oil at the heart of our operations, powering a fully integrated value chain that feeds the nation and fuels progress.

We stand with Malaysia's smallholders and rural communities, championing inclusive economic growth and building pathways for long-term prosperity. Through responsible palm oil cultivation, ethical sourcing practices and innovation, we protect our environment, strengthen food security, and contribute to Malaysia's resilience as a globally connected economy.

Together, we're cultivating a future where growth is shared, sustainable, and rooted in purpose.

Genting Plantations, a subsidiary of Genting Berhad, commenced operations in 1980. It has a landbank of approximately 64,100 hectares in Malaysia and about 179,100 hectares (including the *Plasma* scheme) in Indonesia. It owns seven oil mills each in Malaysia and Indonesia, with a combined milling capacity of 765 metric tonnes per hour. In addition, the Group has ventured into the manufacturing of downstream palm-based products.

Genting Plantations has also diversified into property development to unlock the value of its strategically located landbank and has invested significantly in agriculture technology to provide total solutions and services to the Group's core agri-business in optimising yield, improving operating efficiency, enabling traceability and enhancing sustainability.

Your Trusted Partner in Oleochemical Solutions.

Antara Commodities (M) Sdn Bhd was incorporated in 2017, with wide supply channels throughout Malaysia and Southeast Asia. Drawing upon our experience, we have pooled together the ingredients of high quality goods, superb customer service, competitive pricing and timely delivery to offer our partners at home and abroad the lucrative opportunity to import, export and distribute a comprehensive range of products.

Antara is also a successful and reliable partner in the biodiesel market, thanks to our palm oil byproducts' trading experience. Our services that range from palm oil trading, plantation advisory and farming help us contribute further to the palm oil sector. To offer a more turnkey approach, we offer solutions involving the packaging, branding, distribution, warehousing and logistics for edible oils and fats, as well as specialty fats, oleochemicals, animal feed, shortenings and margarines.

OUR CORE PRODUCT RANGE

Edible Products

- Specialty Fats
- Coating Fats
- Enrobing Fats
- Cocoa Butter Substitute
- Dairy Fat Replacers (Cheese & Ice Cream)
- Hard Stocks for Butter
- Blends

Oleochemicals

- Fatty Acids
- Glycerine
- Fatty Alcohols
- MCT's
- Soap Noodles
- SLES & SLS

Renewables

- Feedstock Biodiesel
- Bio Marine Fuel
- Blend Compounds

Animal Nutrition

- Rumen Bypass Fats
- Calcium Salts
- Palm-based Meals

Technical Support

Expert guidance and responsive partnership at every step.

Flexible Orders

Scaled to your needs with agility and reliability.

Responsible Sourcing

Traceable, ethical and sustainable supply you can trust.
